

Barrel Clamp

Barrel Clamps - A Barrel Clamp is really a mechanical or hydraulic attachment designed for a lift truck. It can be used so as to clutch the item you would like to transfer using the lift truck and is usually used for handling paper rolls, barrels, and kegs. Several designs of barrel clamp accessories likewise have a revolving function. Like for example, the rotate function enables a forklift operator to be able to slot in a vertically stored paper into the horizontal intake of a printing press.
