

Spreader Bar for Forklifts

Spreader Bar for Forklift - Proudly operating since nineteen seventy four, ELME Spreader AB is the largest independent spreader maker around the globe. They have been a devoted manufacturer of spreaders used for different applications like for instance the trailers, handling of containers and swap bodies.

Engineering is done in-house by means of making use of the most up-to-date FEM tools and CAD systems. The ELME business presently employees more than one hundred twenty five employees. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes all-over the globe.

The ELME product collection offers spreaders intended for several container and trailer handling operations. Some of their inventory consist of: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes plus a wide variety of additional parts.

Production and manufacturing of ELME products are developed in highly automated purpose built factory. In the year 2008, they created one thousand one hundred fifty spreaders by means of making use of quality components so as to ensure dependability and excellent standards. Major features of ELME include design simplicity, market response and inventive modular spreader concept.
